# KRIEK FAMILY

## Profile

Dr Johan Kriek, wildlife veterinarian and until recently, commercial helicopter pilot, moved to SA in 1980 from Zimbabwe.

Started a mixed veterinary practise and soon after started importing wildlife from Africa to realise his dream of one day owning his own game farm.

In 1991 this dream was realised and the breeding of rare Roan and Sable antelope started, soon followed by the first private disease free Buffalo breeding project. His wife, Daleen Kriek, a qualified Physiotherapist assisted from the small vet practise days, through all the wildlife importation operations until now where she is still very much involved in the hospitality of Mattanu Private Game Reserve. Their eldest son Johann Kriek was born in 1980, followed by Jacques Kriek in 1982 and daughter Heleen Kriek in 1986. Son Johann qualified as an IT technician during 2001 and developed the Kriek Helicopters & Kriek Wildlife websites with electronic marketing platforms. He obtained his commercial helicopter license during 2006 & was instrumental in the certification of Kriek Helicopters as a commercial helicopter service. Jacques finished his degree in Tourism management/marketing and development and in 2006 actively started developing and marketing the breeding farm as a eco tourism destination evolving into the award winning Mattanu Private Game Reserve. He now

also chairs the WRSA Roan and Sable advisory committee and WRSA Game Rancher of the year awards. The whole Kriek Family also qualified as estate agents with Daleen and Johan being the principals. Along with their sons, under the Kriek Wildlife Group brand, they now specialise in the game breeding/capture/immobilisation, translocation, marketing of wildlife/farms as well as consulting and mentoring current and future game breeders. As professional hunters Dr Johan, Johann and Jacques also assist with all trophy and biltong hunts at Mattanu.

After a period at Mattanu and later manager at Thuru lodge, Burger Schoeman and Heleen moved to Vereeniging where Burger is now part of the Midlands Group team.

Other family members include Johann's wife, Dominique, with children Tiaan, Mine, Tertius and Lohann, a baby boy who arrived in 2019. Jacques's wife, Stephné and children Stephan, Jane and Mienke. Heleen and Burger with Pierre and baby Elaine who arrived late in 2019.

Daar is darem maar min dinge so mooi soos 'n Gemsbok of Springbok in die Kalahari.

Aanvanklik was dit net 'n passie vir jag, maar sedert 2014 kon hierdie twee Bakkes-broers nie meer die versoeking van betrokkenheid in die wildsindustrie weerstaan nie. 'n Behoeftige om top genetika te teel, het dan ook ons prioriteit geword. Vir die laaste 10 jaar was ons fokus op die kwaliteit en genetiese diversiteit van ons troppe.

Gegewe die Kalahari se habitat, fokus ons op gesonde veldbestuur ten einde top genetika Gewone-, Goue-, Rooi- en Swartrug Gemsbokke, sowel as Springbokke in hul natuurlike omgewing te teel.

In die soeke na die beste genetika in die Kalahari, is 'n groot persentasie van ons basiskoeie vanaf Pieter Stander bekom. Dit is dan ook nie toevellig dat sy seun, Lenois Stander, huidiglik aan die hoof van ons teelprojekte staan nie.

Met 'n voorliefde vir die buitelewe en 'n behoefte om aan ons kinders die beste van Afrika na te laat, poog ons om uitmuntende kwaliteit diere te teel wat die volhoubaarheid van toerisme en die jag industrie in Suid Afrika verseker.

At **Karoo Experience**, we've dedicated 30 years to the art and science of breeding and rearing superb, super-healthy springbok. Our never-ending quest to offer the best involves superb genetics and the old-time values of integrity, patience, perseverance and passion for our craft. Karoo Experience is 'n uitvloeisel van stoetteling wat al vir 6 geslagte lank op Nuwejaarsfontein in De Aar distrik bedryf word. Karoo Experience teel 2 bloedlyne springbokke, naamlik kalahari en suiwer damaraland. Ons damara telings is in die vroeë 2000's begin met geselekteerde ramme en ooie wat ons in damaraland self gaan uitsoek het. Deur noukeurige seleksie het ons damara springbokke geneties gevorder tot van die beste in die land. Soos blyk uit die feit dat ons teel huidiglik met 18", 19" en 20" ramme in ons teel troppe.

Die geaardheid en rustigheid van ons damara springbokke is baie uniek. Ons kalahari teeltroppe is meer as 30 jaar terug begin met die hand uitgesoekte ooie vanaf 5 bronne wat elk 'n unieke eienskap aan die trop verleen. As gevolg van streng seleksie oor die jare is die trop gemiddeld iets om te beleef. Nie net horing lengte nie, maar ook lyf grootte is 'n baie unieke eienskap van die teling.

Bogenoemde staaf ons beleid dat 'n stoetery bestaan uit 'n trop hoë kwaliteit vroulike diere.

Vandag word daar op bykans 2600 Ha semi intensief met verskeie wildsoorte geboer en word daar voortdurend gefokus om vir die beste genetiese materiaal te selekteer en vir teling te gebruik. Op die plaas Lorraine, Plooyburg distrik, is daar byvoorbeeld al verskeie bastergemsbokbulle van oor die 30 duim geteel. **Spitzkop Wild** is situated 25 km outside Kimberley in the Jacobsdal district. We started with a core herd of oryx in 2016, chosen for their large bodies and exceptionally long horns.

Over time, we have selectively purchased cows that would enhance these features. In 2019, we added Spikes (44"), Son of Master Jack (45") to our herd of cows. We had our most recent tag and measure exercise in February 2024 and three of our bulls measured more than 43 inches with a base of 7½ inches and larger with very symmetrical horn features.

This is very exciting to us and bodes well for the future of Spitzkop's herd.

In 2012 het ek betrokke geraak by die wildbedryf en myself toegespits om met top-genetika Roan spesie te teel. Ons eerste bokke is gekoop by Dr Johan Kriek omdat ek glo om te koop by iemand wat kennis en goeie kwaliteit van 'n spesie beskikbaar het. Ons teel van Roans het begin met 100 hektaar op die Plaas Doornaar 30km van Danielskuil, waar ons maklik kon selekteer en skuiwe maak tussen jag- en teel-bulle.

In 2015 het ek my vrou, vennoot en lewensmaat ontmoet wat saam met my 'n passie deel vir die natuur. Haar ondersteuning en dryf het gelei daartoe dat ons in 2021 ons passie kon uitbrei na n plaas in Boshof distrik, nader aan die huis.

Putfontein laat ons toe om nie net te teel met roans nie, maar ook meer mark-aanpasbaar te wees en sodoende n Simbra-bees-stoet, jag en akkommodasie deel van ons natuur ervaring te maak.

Ons oogmerk is dat die stoet ons primêre inkomste sal wees binne die volgende twee jaar, ons minder gaan fokus op die jag van diere, en meer op die teel van top-genetika wild.

Die konstante rotering van bulle en ramme onder ons bok spesies is baie belangrik vir ons om basterkrag te behou en inteling in kudde te vermy.

Dis vir ons belangrik dat die finansies van boer moet werk en daarom poog ons om soveel moontlik uit ons grond te maak waarmee God ons toevertrou het.

Om te kan boer met wild is nie ons primêre bron van inkomste nie, maar wel ons passie en is ons gesêen om dit in ons Vader se genade te kan uitleef. Dis vir ons belangrik om ons kinders, Livia en Sion, asook ons werkers en hulle kinders die belangrikheid van die waardering, bewaring en beskerming van God se natuur eerstehands te kan leer.

Op 'n Boesmanlandse skaapplaas naby Kakamas het my pa in 1976 besluit om 'n paar Gemsbokke by 'n vriend van Helmeringhausen te koop.

Almal sal reg raai as hulle raai waar daardie wêreld se bokke vandaan kom, hulle het uiters goed aangepas en toe die Goue Gemsbokke gewild raak het ek in 2012 Burchell genetika

van Namibië ingekoop. Met die oorspronklike Gemsbokke saam met Langhoring koeie wat ek ingekoop het, het ons begin kruisteel en gou gesien dat ons besonderse horing lengte en kwaliteit

begin teel en deur seleksie probeer ons jaar op jaar verbeter. Ons het reeds in 2016 ons eerste 42"+ koei op Kalahari Wildswinkel veiling verkoop.

Ek glo dat die bokke wat ons gaan aanbied 'n positiewe bydrae in enige ander kuddes kan lewer.

At **Extraordinary Wildlife** we keep it simple: we breed Extraordinary Roan!! We've combined extraordinary genetics from legendary roan bulls such as KULU (34"), Lechwe (32", 22" T-T), Casanova (32 6/8"), Danger (31 6/8") and Troy (31 4/8", 16 T-T) to name a few, on exceptional females.

Our genetics are extremely diversified as a result of careful selection from top roan breeders such as Dreyer Van Zyl, Langberg Safaris, Kriek Wildlife Group, Tswalu, Wintershoek and Glen Lyon. Accordingly the unique qualities of the herd such as dark colour, horn shape, horn length and big bodies are evident.

Our roan is robust and cold adapted with a good disease resistance and will perform well under any extensive management system.

At Extraordinary Wildlife we live and breathe EXTRAORDINARY and that is exactly what we will add to your herd!!

## JAKHALSDANS - KAROO WILDDIENSTE

Jakhalsdans, 'n simbool van liefde vir die Karoo se natuur en wildlewe, word al vir vier geslagte deur die Van der Westhuizen-familie bewerk. In 1953 het ons die eerste stappe in wildboerdery geneem, teen die oortuiging van diegene wat geglo het dat die Karoo nie geskik was vir sulke ondernemings nie.

Vanaf daardie tyd het ons wildbedryf gegroei en in 1995 het ons 'n ervare span vir wildvangsaktiwiteite saamgestel, en Karoo Wildddienste is toe gebore. Ons teel topgehalte, geharde diere wat enige plek in die land kan oorleef. Met 'n onwrikbare toewyding tot kwaliteit en 'n passie vir die natuur en die wildbedryf, streef ons na tevrede kliente en die lewering van diere van hoogstaande gehalte.

Ons geloof in die bewaring van die Karoo se natuurlike erfenis en ons toewyding tot uitnemendheid is ons riglyn in elke aspek van ons bedryf.

**Kalahari Wild** strive to breed genetic superior animals for the breeder's market, creating sustainable wealth and resources for generations to come and to contribute to the conservation of these unique specie, that of roan antelope. The business was established by Jacques van der Merwe and Janus Kotze in 2012; combining expertise from both the stud cattle industry as well as buffalo breeding industry. The main focus was to breed with strong-bodied, fertile, wide tip-to-tip animals and putting together a wish list soon led to a road trip visiting many breeders, not only to acquire top quality selected females from herds like Glen Lyon, Langberg, Botlierskop and The Kriek Wildlife group, but also to learn more from these and other renowned breeders like Tswalu, Gary Donian, Tina de Jager, George Potgieter, Richard Morton, Elsa van den Heever. A group of animals were selected from prominent breeders on strict criteria phenotype as well as genotype. The initial herd of exceptional 25 females and a stunning bull dubbed Lechwe with 21 inch tip-to-tip were soon thereafter offloaded on Grootfontein farm in the Kuruman District where the animals were managed in a holistic intensive system. Creating a very successful management system soon attracted other investors/breeders putting together another mob of top females, taking numbers up to sixty plus calves born per annum, introducing other bulls with exceptional tip-to-tip and horn mass, making the gene pool even more diverse.

After five years successful breeding, a land claim forced the business to split the herd and relocate to Colesberg, Kimberley and Van Zylsrus where they are managed as isolated units with rotation of top young bulls bred from the herds.

**Roilaagte Wild and Game** was established in 2016 as a dedicated branch of the 5th generation old livestock family farming practice. In our area traditional farms are smaller and we decided to breed with game that will excel in these tough Nama-Karoo conditions. The quest for quality traits in selecting our animals is a high priority for us. Over the years we mainly supply the hunting fraternity with animals that did not meet our selection, as well as some great trophy animals to private clients.

Through the years we acquired top genetics from local as well as from Namibian breeders to create more diversity in our gene pools. We select for large body, trophy horns, well defined colour and well adapted veldt animals. We consistently improve our offspring and next generation animals.

The operation is headed by Coenie Lourens (jr.) "My father gave me the opportunity to follow my dream and passion for game, I made the investment and love it... the heartbreak with the joy."

Along the way I accumulated a mentor and still today he is my father in the game industry. Without his guidance and assistance, it would not be possible for us to offer some of these animals to the market.

**Vaalkop Game Lodge** specialises in the breeding of small antelope in the Karoo near Steytlerville. For 10 years we have established breeding stock of our halo species, Klipspringer with Blue Duikers and Grysbok following. These secretive animals are Karoo adapted, take feed and human accustomed. We strive for robust animals of trophy quality and easy temperament. These antelope provide many hours of fascinating viewing near a homestead although reintroduction is an option. Our passion for small antelope resulted in Vaalkop being awarded the 2019 WRSA Eastern Cape Game Breeder of the year.

Dreyer van Zyl het die **Dreyer-van-Zyl-Wild** boerdery in 1989 begin met siektevrye buffels en in 1991 aangevul met bastergemsbokke en swartwitpense. Die drie spesies is vandag nog hulle fokus. Dreyer se dogter, Anndri en haar man, Greg Garrett (beide veeartse), het aan die begin van 2014 die bestuur van die boerdery oorgeneem. Greg en Anndri streef daarna om te bou op die kwaliteit van diere wat deur Dreyer se versigtige seleksie tot stand gebring is. Die DVZ swartwitpenskudde is aan die vroulike kant geslote sedert 1992, en die bastergemsbokkudde sedert 2003.

"Ons is trots op die kwaliteit van die diere wat ons produseer, wat die produk is van dekades se volgehoue seleksie. Min troppe is so geneties divers, iets wat ons glo is van uiterste belang om vrugbaarheid, aanpasbaarheid en algemene siekteweerstand te behou. Horinglengtes is baie belangrik, maar is beslis nie al waarop ons fokus nie."

SUPER SLAM hunted by Alan Freilich with Johann and Jacques Kriek from Tharo Safaris

SUPER SLAM hunted by Hardy Jackson with Shaun Keeney Safaris

# LOT 25

M:1 | F:- | Σ:1

The Saddle Back Oryx - a remarkable colour variation with limited numbers in breeding, gained considerable traction among Gemsbok enthusiasts following the successful hunting of the first 2 Super Slams in 2023. Familiar colour variations include Common, Red and Gold, and the addition of the Saddle Back Oryx to this grouping now completes the Oryx Super Slam.

Over the past two years, pricing trends have indicated Common gemsbok ranging from \$1200 to \$1500, Red from \$5000 to \$6000, Gold from \$3000 to \$4000, and the prized Saddlebacks, one of which was hunted for \$20,000.

The original Saddlebacks were bought by Dr Kriek in 2015 on auction in Namibia for R950 000 and R600 000 respectively and imported to SA along

with the rest of the herd of origin comprising of cows up to 47" from the Gochas area. Bernard Snyman also bought into the partnership in 2015 and these projects separated in 2019. One other bull was purchased by Julius Gers from Klein Papkuil safaris and a herd of limited numbers is also growing on his farm. One bull was hunted there in 2023. Shaun Keeney safaris bought some females from Dr Kriek for new genetics from that herd in 2017 and 4 saddlebacks have already been born on his open reserve to date. Hennie Posthumus bought sections of the Mattanu reserve with one of the Saddleback projects and numbers are increasing on the neighbouring farm. He also added to the genetics by purchasing a bull and 5 splits on the 2023 KWG auction for R240 000. Japie Naude and Arno Bakkes also found this unique

colour variation very intriguing and appealing and initiated 2 projects in 2023 in Limpopo and Upington areas respectively. Arno and Luther from Labak recently also acquired the whole Bernard Snyman herd of saddleback and split animals. From this herd a limited opportunity is now available in the form of a breeding bull and 4 split cows available on the Kriek Wildlife Group auction 13 April 2024. We are currently only aware of these 6 farms and breeders where these very rare oryx can be found. Genetic integrity and diversity is key as inbreeding might have occurred in the past. Thus only a limited number of adult bulls will be available to the breeding and hunting market every year. Do not miss out on this opportunity.

The original 2 bulls had very unique black saddles extending to the buttocks and down the thighs

and also joined to the thicker bottom black stripe on each gemsbok. Animals tend to vary in colour during different times of the year and some display much more black hair on the chest and shoulder areas than others. Just like the saddleback impala some have more black on the front and back legs as well and no correlation has been found yet on the best way to breed dark saddles. Some suggest lighter bulls may breed darker offspring and vice versa. Some breeders prefer the distinctive black saddle and others love the saddle blended into the dominant black colour on the chest and shoulders as well. Personal preference will prevail, but one thing is certain and that is that these trophies will be on the walls in the US very soon and demand will surely outstrip supply even more in the near future.

Maraisdraai Buffalo herd originated in 2010 with the purchase of 3 East African cows from Sable Ranch between 30-32". The next 6 cows were purchased from Thaba Tholo auction 2010 where one of the cows measured 34.5" and one was a Matetsi 49" daughter pregnant to Cuanza 50". David 47 1/8" was the breeding bull for the last 7-8 years. (Daar is fotos van hulle in 2021 catalogue dink ek en David ook as jy dalk kan bysit asb.)

The remaining 2 heifers were purchase from Wintershoek and were Tyson daughters. The herd has remained closed since then with numerous 47"+ bulls bred from this herd. Tidal Winds purchased the whole herd in 2022. Females on KWG have been selected from this closed herd of around 50 buffalo currently running at Barkley West in the Northern Cape from which numerous cows of 36"+ have been bred.

(As auction house, herein after referred to as the “Auctioneer” and the person conducting the auction referred to as the “auctioneer”)

1. All goods sold by auction will be subject to a reserve price, unless specifically stated otherwise by the auctioneer at the start of the auction.
2. Unless where notice is given, it is not allowed that the Owner / Seller, his agent or the Auctioneer may bid on any of the Owner’s / Seller’s goods sold by auction. However, individual Sellers may bid on other Sellers’ animals.
3. These Rules of Auction comply with Section 45 of the Consumer Protection Act, Act 68 of 2008 (“the Act”) and the Regulations of the Act as applicable, which read as follows:

#### Section 45: “Auctions”

- 1) *In this section, “auction” includes a sale in execution of or pursuant to a court order, to the extent that the order contemplates that the sale is to be conducted by an auction.*
- 2) *When goods are put up for sale by auction in lots, each lot is, unless there is evidence to the contrary, regarded to be the subject of a separate transaction.*
- 3) *A sale by auction is complete when the auctioneer announces its completion by the fall of the hammer, or in any other customary manner, and until that announcement is made, a bid may be retracted.*
- 4) *Notice must be given in advance that a sale by auction is subject to—*
  - a) *a reserved or upset price; or*
  - b) *a right to bid by or on behalf of the owner or auctioneer, in which case the owner or auctioneer, or any one person on behalf of the owner or auctioneer, as the case may be, may bid at the auction.*
- 5) *Unless notice is given in advance that a sale by auction is subject to a right to bid by or on behalf of the owner or auctioneer—*
  - a) *the owner or auctioneer must not bid or employ any person to bid at the sale;*
  - b) *he auctioneer must not knowingly accept any bid from a person contemplated in paragraph (a); and c) the consumer may approach a court to declare the transaction fraudulent, if this subsection has been violated.*

- 6) *The Minister may prescribe requirements to be complied with by an auctioneer, or different categories of auctioneer, in respect of—*
  - a) *the conduct of an auction;*
  - b) *the records to be maintained with respect to property placed for auction; and*
  - c) *the sale of any such property by auction.*
4. The auction is conducted for the normal and voluntary disposal of the Owner’s / Seller’s goods.
5. Buyers are bidding per piece to take the lot, unless where explicitly stated otherwise by the Auctioneer or in the Auction Catalogue.
6. The auction will start at the published time. The auction will not be delayed to allow any specific person or more persons to take part in the auction.
7. All goods sold at the auction are sold by the Auctioneer as agent on behalf of the Owner / Seller. The Owner / Seller hereby authorises the Auctioneer to issue invoices, credit and debit notes as applicable on its behalf and agrees not to issue the aforementioned for the same supply. The Owner/Seller also hereby authorises the Auctioneer to collect the purchase price from the Buyer and the Owner / Seller do hereby cede to the Auctioneer all the Owner / Seller’s rights, title and interest in and to its claim for payment of the purchase price against the purchaser, which session the Auctioneer do hereby accept.
8. The purchase price of the goods sold by auction specifically excludes VAT and VAT must be added to the purchase price and paid by the Buyer unless specifically indicated otherwise. Declaration and compliance related to all applicable taxes is the responsibility of the Owner/Seller and Buyer as relevant.
9. Transfer of risk:
  - 9.1 Risk in respect of profit and loss in the goods sold per catalogue shall pass to the Buyer upon the fall of the hammer and upon acceptance of the bid by the Owner/Seller. The risk in mortality of the goods will remain with the Owner/Seller until the goods are loaded on the Buyer’s transport. Where delivery is included in the bidding price

the risk in mortality of the goods will remain with the Owner/Seller until safe step-off at the Buyer’s address.

- 9.2 In the event where animals kept in boma are auctioned, risk in respect of profit and loss in the goods sold will pass to the Buyer upon the fall of the hammer, which risk include mortality.
- 9.3 Notwithstanding the passing of risk, ownership shall remain vested in the Owner/Seller until such time as the full purchase price has been paid to the Owner/Seller.
10. Delivery of the goods sold at the auction, shall only be given to the Buyer upon the Buyer fully performing its payment obligations in accordance with these conditions of sale. The Owner / Seller shall be responsible for costs incurred to deliver the goods on the Buyer’s transport. The Buyer shall be responsible for procuring and paying for transport of the goods from the Owner / Seller’s property.
11. The parties specifically agree that no bid may be retracted after the bid has been knocked down (fall of the hammer) and accepted by the Owner / Seller, unless the Owner / Seller consents thereto in writing.
12. Subject to any reserve price placed on any of the goods by the Owner / Seller, the Buyer at any sale by auction shall be the highest bidder indicated by the auctioneer by the fall of the hammer or by such other means as the auctioneer may select.
13. The auction shall take place under the direct and exclusive control of the auctioneer. The auctioneer reserves the right, in its sole discretion, to refuse the bid of any person, to regulate the bidding and to indicate the highest bidder. If the auctioneer suspects that a bidder has not made a bona fide bid, or is unable to pay the purchase price or has not made satisfactory arrangements for payment of the purchase price, he may refuse to accept the bid of such bidder or accept it provisionally until the bidder has satisfied him that he is in a position to pay the purchase price or that he has made satisfactory arrangements for payment thereof. On refusal of a bid under such circumstances the goods may immediately be re-auctioned.

14. In the event of a dispute arising amongst the bidders and / or the Auctioneer, the goods in dispute shall, at the sole discretion of the Auctioneer, be re-auctioned.
15. Any error by the auctioneer shall be entitled to be corrected by him or her immediately upon discovery.
16. Should any contractor remove any goods from the sale venue on instruction of the Auctioneer, acting on behalf of the Buyer, the contractor will be deemed to be the contractor of the Buyer who accepts all costs and risks connected with such removal.
17. The Owner / Seller warrants that there are no encumbrances on such goods, that the said goods are the property of the Owner / Seller, and that the Owner / Seller is competent and legally entitled to dispose of the goods.
18. The Owner / Seller, who offers the goods for sale, accepts all liability regarding the information furnished as to pedigrees, ages, dates of service, state of health or gestation or any other particulars which might be incorrect. In the event of any dispute the Buyer shall only have a claim against the Owner / Seller and not against the Auctioneer. The Owner / Seller and Buyer indemnify the Auctioneer against any claim(s) regarding the information furnished as to pedigrees, ages, dates of service, state of health or gestation or any other particulars which might be incorrect.

20. Where goods are put up for auction the following conditions apply to such goods:
  20. 1 Where the age of the animals are not specified, the animals will be regarded not to be older than 5 years and in a good and healthy condition.

- 20.5 In the event where the Owner/Seller acted bona fide and the animals put up for auction did not meet the specifications as described in the Auction Catalogue (i.e. pregnancy, age horn length, etc.), the Buyer has the right to cancel the transaction or to negotiate amended terms and conditions. The commission shall be payable on the new terms as agreed upon between the Owner/Seller and Buyer and approved by the Auctioneer.
- 20.6 Horn lengths provided by the Owner/Seller or its duly authorised representative, of animals put up for auction, are warranted by the Owner/Seller.
21. The Owner / Seller warrants that the goods sold are free of any known patent and latent defects and that any right or claim ceded to the Auctioneer in terms of these Rules of Auction is free of any defect or right of deduction or set-off, and that the said right or claim is fully and immediately enforceable against the Buyer.
22. The Buyer shall, prior to the sale, ascertain whether there are any defects in the goods and any bid by a Buyer shall be considered as acceptance of the goods with any patent or latent defects in their condition at the time of sale.
23. The Buyer shall not be entitled to withhold payment of the purchase price to the Auctioneer as a result of any possible or pending claim that he may have against the Owner / Seller on the grounds of misrepresentation or for any other reason whatsoever.
24. The purchase price is payable by the Buyer to the Auctioneer via electronic transfer ("EFT") on the day of the auction ("the payment date") unless other payment terms and or means are agreed between the Auctioneer and the Buyer. The Auctioneer reserves the right to refuse any other method or means as payment. Payment by way of EFT will only be regarded as done as soon as the funds transferred reflects and are available in the Auctioneer's bank account.
25. In the event that the Auctioneer agrees to facilitate the purchase of the goods by paying an amount equal to the purchase price to the Owner / Seller before the Buyer makes payment to the Auctioneer ("the Payment Terms Agreement"), then the following shall apply:
  - 25.1 The election to make any payment to the Owner / Seller shall be in the sole and absolute discretion of the Auctioneer, which discretion may be exercised separately with regards to each transaction entered into by the Buyer.
  - 25.2 Upon payment of the amount referred to in 25.1 above the Owner / Seller's right, title and interest in and to any claims and other rights against the Buyer in terms of or connected with the sale of the goods shall forthwith be ceded and transferred to the Auctioneer, which session the Auctioneer hereby accepts.
  26. In the event of any Payment Terms Agreement between the Auctioneer and the Buyer, the following shall apply:
    - 26.1 No Payment Terms Agreement shall be valid unless reduced to writing and duly signed on behalf of the Auctioneer. The facilitation of any sale by the Auctioneer as referred to in this paragraph 26 shall be strictly subject to the terms and conditions of the Payment Terms Agreement.
    - 26.2 In the event of any conflict between the contents of this document and the Payment Terms Agreement, the provisions of the Payment Terms Agreement shall prevail.
    - 26.3 No application for credit as defined in section 8 of the National Credit Act, Act 34 of 2005, will be received or considered by the Auctioneer.
    27. Anyone that intends to bid at the auction (Buyer) must register his or her identity on the bidder's record prior to the commencement of the auction and such registration must meet the requirements of the FICA (Financial Intelligence Centre Act, 2001) in respect of the establishment and verification of identity of the person. A lot will only close if a final bid on the lot stands alone for a period equal to the Extension Period. The lot will only close if a final bid on the lot is received and stands alone for a period equal to the Extension Period.

The "fall of the hammer" on a lot for the purposes of the timed auction is defined as the date and closing time published on the online bidding platform and/or the Seller's/Auctioneer's public websites, alternatively at the date and time a final bid on a lot stands alone for a period equal to the Extension Period, whichever occurs last.
- e. All lots on sale on the timed auction will have a minimum starting bid price which will be indicated on the online bidding platform. Any bid above the minimum starting bid price will not necessarily be successful as the lot may be subject to a reserve price. Should the aforementioned occur it is advised to make contact with the Auctioneer as soon as possible to obtain instructions from the Owner/Seller to explore the viability of entering a transaction.
